Top Sequel Predictions for 1995

Generations II: The Wrath of Soran

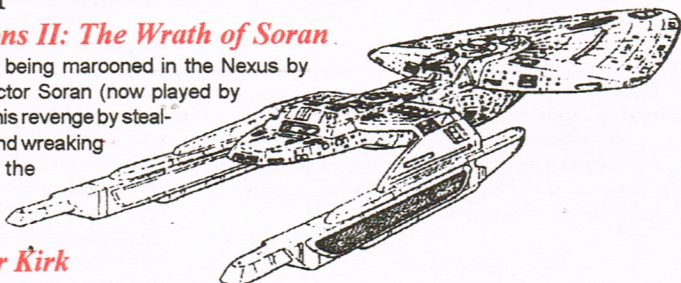

Twenty five years after being marooned in the Nexus by Captain Kirk, the evil Doctor Soran (now played by Ricardo Montalban), plots his revenge by stealing a Federation starship and wreaking havoc on the crew of the Enterprise E.

Generations III: The Search for Kirk

Data notices a striking resemblance between the energy pattern generated by the Genesis wave, and the one generated by the Nexus. Buoyed by his findings, counselor Troi (now played by Robin Curtis) beams over, finds the infant Kirk, and raises him to retirement age in the space of about 15 minutes. Kirk returns to earth and takes a job as a bingo caller on the Pacific Princess cruise ship. While there, Aaron Spelling introduces him to *Dynasty* vixen Joan Collins with whom he falls in love, due to her startling resemblance to lost love, Edith Keeler. Congressman Fred Grandy of California appears as Gopher, with DeForest Kelley as Doc.

Generations IV: Whale of a Tale

Two killer whales, disgruntled about being displaced from their own time line, maim a swimmer off the coast of San Francisco. As a result, the man is unable to have children. By wild coincidence, the child he was supposed to have, would have grown up to be Commander Will Riker. Picard travels back in time to prevent the attack on the unsuspecting swimmer. John Bobbitt guest stars as "Tip" Riker.

**SCIENCE FICTION TAKES US ON A JOURNEY, A TREK INTO THE UNKNOWN.
THOSE OF US WHO ENGAGE IN THIS JOURNEY ARE TREKKERS.**

Welcome to our World

By definition, a TREKKER is someone engaged in a journey. Whether you journey by starship, TARDIS, or Quantum Leap accelerator, we hope we have put together a collectibles catalog that appeals to you. If this is the first you've heard of us, here's a little background...

Our catalog is not...

Our catalog is not the largest in the industry. There are items carried in other catalogs that you won't find here. We don't expect to be all things to all people.

Our catalog doesn't reach as many people as other catalogs. We prefer to look at that as an opportunity to better serve the customers we have.

Our purpose

The purpose of 800-TREKKER is to provide you with some of the newest and most popular program-related science fiction merchandise at competitive prices.

We at 800-TREKKER feel we have a truly unfair competitive advantage in the marketplace, in that we are first and foremost sci-fi enthusiasts. We love what we do, and that makes it easier for us to do it well.

However, enthusiasm alone doesn't get the job done. A venture such as this requires time, effort, energy, bullheaded determination, and a team of dedicated people working together toward a common vision.

That is what we have established here.

Our goal is quite simply to be the very best there is. Not just the best sci-fi catalog company, but the best catalog company in any industry.

Our mission is to combine the very best aspects of the top catalog organizations in the country. Things like:

1. An easy to remember, toll-free order line, that you can access any time, 24 hours a day, seven days a week. 8 to 5 is good for us, but it might not be good for you.
2. A selection of the best quality merchandise in the industry. You'll note we've chosen quality over quantity. We don't want to offer you anything that we wouldn't want to buy ourselves.

4. Unrivaled customer service. We want to give you the very best buying experience you've ever had. We plan to do that by serving you better than other companies. Not just a little better, a lot better. We know you have a choice when buying collectibles. That's why we plan to spoil you with our service.

5. No risk buying. 800-TREKKER marks the end of the "all sales final" mentality so prevalent in the science fiction catalog industry. If you're unhappy with a product you buy from 800-TREKKER, for any reason, we'll return it for a refund, exchange or credit within 90 days. *(Due to copyright regulations, video and audio titles that have been opened may only be exchanged for another copy of the same title.)* Wholesale and special orders exempt.

6. Best price guarantee. If you buy a product from 800-TREKKER and then find it advertised for less money elsewhere, send us a copy of the ad, and we'll refund you the difference **PLUS an additional 10% of the difference...** even up to three months after the sale! You'll never overpay with 800-TREKKER. . . we guarantee it!

7. Fast shipping and order tracking. We'll never leave you in the dark about the status of your order.

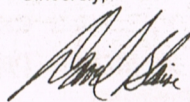

8. Special orders. If you'd like to buy an item that is not in our catalog, let us know. We'll make every effort to find it for you.

9. Responsiveness. We thrive on your input. Let us know what we can do to make our catalog more beneficial to you.

10. Follow up. We know that the keys to our success are the people who buy from us. That's why when you buy from 800-TREKKER, you'll be entitled to receive additional discounts and specials not available to the general public.

If you remember the joy you experienced the first time you ordered and received something wonderful by mail, you understand what it is we're trying to accomplish here. We're working to instill that feeling, every time you receive an order from 800-TREKKER.

Sincerely,

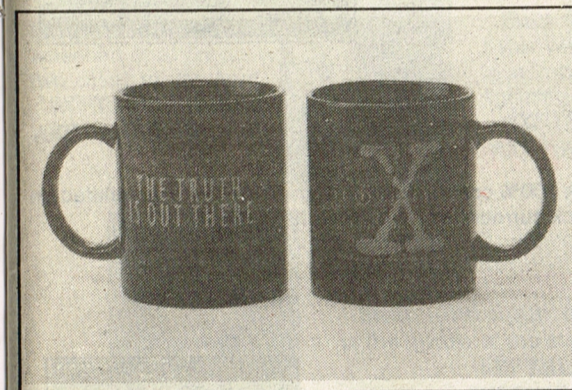

David Blaise
President

HIRSCHFELD'S SCI-FI GALLERY

Since 1990, renowned artist Al Hirschfeld has been commissioned to draw three different science fiction related works:

"The Seven Incarnations of *Doctor Who*," "Classic *Trek*" and "*The Next Generation*."

From the original drawing, a small number of limited edition lithographs were created and numbered by hand. These were each hand signed by Hirschfeld himself. Most of the lithographs were snatched up in record time by fans and collectors.

However, 800-TREKKER has made a small number of these unique lithographs available to our customers by special arrangement with Hirschfeld's exclusive representative, the Margo Feiden Galleries, Ltd. New York.

Hirschfeld's drawings have thrilled millions since 1927. He is the first artist in history to have his name on a U.S. Postage Stamp Booklet with the release of five stamps that Hirschfeld was commissioned to design: Laurel & Hardy, Jack Benny, Edgar Bergen & Charlie McCarthy, Abbott & Costello and Fanny Brice. Due to the popularity of these designs, the Post Office recently commissioned Hirschfeld for eight new designs paying tribute to silent film stars Rudolph Valentino, Lon Chaney, Clara Bow, Buster Keaton, Theda Bara, Harold Lloyd, Charlie Chaplin and The Keystone Cops. These stamps are currently available at your post office.

In 1994, the prolific artist celebrated his 91st birthday, and he is still going strong.

The word "NINA", the name of his daughter, is whimsically woven into nearly every drawing he does. He playfully hid the name in a drawing the day she was born in 1945, and "finding the Ninas" soon became a passion for his fans. If he leaves it out, he says, "they go crazy." The Seven Incarnations of *Doctor Who* and *Classic Trek* each contain 3 hidden NINA's. *The Next Generation* contains... well, you figure it out!

With an expression of mild wonder, Hirschfeld said his lithographs have "gone up in value tremendously" in recent years. "I did a Marx Brothers that originally was published for \$90, I think, and now it goes for something like \$4,000. That's a pretty good appreciation, I'd say."

Any of these lithographs would be a valuable addition for a collector, particularly true fans of *Star Trek* and *Doctor Who*.

While each lithograph has already appreciated in value, they are likely to become even more valuable when the small number of remaining pieces are in the hands of private collectors. By investing now, you virtually assure yourself of future appreciation.
